ALI HASSAN

Software Engineer | MERN | React js | Node js | TypeScript

📞 +92 3120790641   @ alidev098@gmail.com   📎 linkedin.com   📍 Lahore, Pakistan

SUMMARY

Experienced Software Developer with 3 years of experience in building modern, high-performance web applications, using React, Next js, Node and TypeScript. Skilled in creating intuitive and responsive user interfaces, integrating third-party APIs, and developing feature-rich web solutions. Additionally experienced in backend development using Node.js, Express.js, and MongoDB, contributing to end-to-end application delivery. Frontend-focused developer actively expanding into full stack development to deliver more complete solutions.

EXPERIENCE

Software Engineer

BrainsHub   📅 Sep 2024 - Present   📍 Lahore

- Built reusable React components for various client projects, including e-commerce websites and mobile-first applications.
- Developed and integrated RESTful APIs using Node.js and Express.js to support frontend features and business logic.
- Implement new features, optimize existing ones, and refactor legacy code using React, Redux, and TypeScript.
- Implemented user authentication and authorization using JWT-based token strategies and middleware.
- Contributed to a product matchmaking platform built in Angular, providing frontend support and integration assistance.
- Collaborated closely with UI/UX designers and QA teams to ensure design consistency and thorough testing.

React / Next js Developer

Consultancy Outfit   📅 May 2022 - Aug 2024   📍 Lahore

- Collaborated closely with design and backend teams to translate UI/UX designs into scalable, reusable components, while implementing robust state management using Redux and Context API to ensure consistent data flow and high-performance user experiences.
- Optimized front-end performance for a SaaS product, reducing initial load times by 30% through code splitting and lazy loading.
- Integrated RESTFul APIs to enable seamless communication between client and server, utilized third-party to enhance functionality.
- Integrated third-party services and APIs, including payment gateways, analytics tools and socket io for real time communication.
- Built responsive and customizable dashboards with ApexCharts and Echarts, integrating real-time data feeds to deliver insightful visualizations for business analytics.
- Mentored junior developers, facilitating bi-weekly code reviews and workshops, which improved team coding standards and reduced bug reports by 30%.
- Participated in Agile development processes, including sprint planning, daily stand-ups, and retrospectives, to deliver high- quality software within project timelines.

EDUCATION

Bachelor of Science in Computer Science
GC University Faislabad   📅 2016 - 2020

Intermidate of Computer Science
Govt College Gujranwala   📅 2014 - 2016

STRENGTHS

- Problem-solving and analytical thinking
- Effective communication and collaboration
- Time management and prioritization
- Adaptability and continuous learning
- Ability to work independently and as part of team

TECHNICAL SKILLS

Frontend:
React | Next js | javaScript(ES6+) | TypeScript Angular | HTML5 | CSS3 | Redux | Zustand Tailwind css | Material UI | React Query | Axios Data Visualization (Recharts, Apex Charts)

Backend:
Node js | Express js | MongoDb | PostgreSQL Prisma | REST APIs | JWT | Socket.io

Tools & Platforms:
Git | Github | Postman | JIRA | Vercel | Netlify Webpack | Docker (Basic)

Testing & Optimization:
Jest | Vitest | React Testing Library | Lighthouse

CERTIFICATIONS

Meta Front-End Developer Professional Certificate
Coursera

React, NodeJS, Express & MongoDB The MERN Fullstack Guide
Udemy

LANGUAGES

- English : Conversational Proficiency
- Urdu : Native

HeathwayFoods Store – **Heathway Foods**
Link: Heathwayfoods.com

- Contributed to the development of responsive and reusable UI components using Next.js and Tailwind CSS.
- Refactored redundant code into reusable components and abstracted repeated logic into custom hooks to improve code maintainability and reusability.
- Worked in a collaborative team environment, contributing to both UI refinement and functional backend features.

HR Management Solution – **Peoplescreed.ai**
Link: Peoplescreed.ai

- Contributed to the admin dashboard development, delivering a responsive and intuitive interface for HR operations.
- Implemented role-based access control (RBAC) to manage user permissions and enhance data security.
- Integrated analytics dashboards and charts for visualizing employee performance, recruitment metrics, and attendance data.
- Optimized component structure and state management using Redux Toolkit, ensuring maintainability and scalability.
- Collaborated with cross-functional teams to align UI with business needs, improving usability and admin efficiency.

Get World talented people in one place – **Students Help Squad**
Link: Studethelpsquad.co.uk

- Developed reusable global components (forms, inputs, modals, buttons) to ensure consistent UI/UX across the application.
- Implemented authentication flow, including login, signup, and protected routes for secure access.
- Integrated RESTful APIs using Axios, ensuring efficient data fetching and error handling.

Seamless verification process – **Identity Gram**
Link: identitygram.co.uk

Identity Gram is an intelligent identity verification platform that helps businesses securely onboard customers and remain compliant. It combines AI, biometrics, and document verification to streamline KYC processes.
